Support Notes:

- (a) Guest Customization of Nano Server is not supported.
- (b) vCenter 6.5 is the last release to support Guest Customization for Windows Server 2003 and Windows XP. However, ESXi 6.5 is not the last release to support running Windows Server 2003 and Windows XP. For more details on ESXi support of guest operating systems see the VMware Compatibility Guide.
- (c) Guest OS Customization of SLES does not support NetworkManager, requires use of Wicked.
